## Experience the creativity and power of the Drum

Before the drum was created in Africa, women created rhythm while they worked to pass the time more joyfully. Come and experience the joy of drumming and acknowledge your primordial rhythmic roots. In this workshop Liz Broscoe of Drumchik Productions, [www.drumchik.com](http://www.drumchik.com), will teach the fundamental techniques of West African djembe and dunnun drums, while presenting the history and culture behind the original meaning and purpose of drumming.
