

Three-day Silent Meditation Retreat with Ajay and Suruchi from Dharamsala India

Friday, May 8, 4:00 pm to Sunday, May 10, 5:00pm
at Clair Tappaan Lodge, 19940 Donner Pass Road, Norden, CA 95724
Ajay and Suruchi have been instrumental in initiating Z Meditation Work, which uses
Deep Inquiry to dig out conditionings and realize unconditioned peace and love.

I arrived with unsolvable problems — so I thought... I arrived with pain. Here, I have been shown how to see more clearly. I have been shown how to look deeply and see the difference between illusion and reality. I can see now that I have been looking for happiness outside of myself — I can never find true happiness, true completeness outside.

After 15 years of meditation practice with wonderful masters, I reconnected with Ajay and Suruchi last year who gave me the kick my practice needed. It has taken me a lifetime(s) to create my thought patterns of fear, jealousy and anger. In less than a year, thru the practice of deconditioning and inquiry, I am tasting true freedom and awakening to my true nature.
