## Mysticism in the Bible

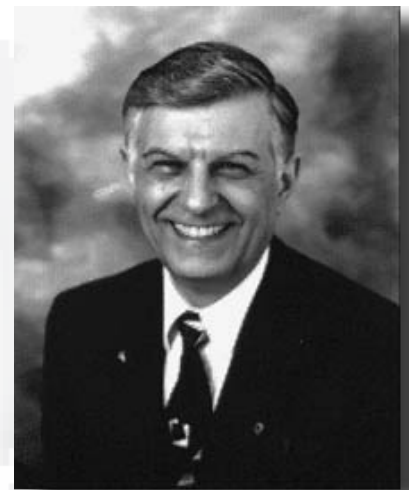

By Renowned Bible Scholar and Expert in the Aramaic Language

### Dr. Rocco A. Errico

Over 40% of the Bible is based on Near Eastern Mysticism- that is, insight into the hidden world around us.

A mystical experience is the soul's capacity to perceive more than the physical eyes can see. In this four hour seminar, Dr. Errico reveals the secrets of the ancient, Semitic seers: Samuel, Elijah, Elisha, and other Hebrew prophets. The books of First and Second Samuel and First and Second Kings takes on new meaning after understanding the Near Eastern approach to God and the invisible, spiritual faculties of one's own heart and mind.

Dr. Errico shows the practical side to intuitive insight that brought to birth the Near Eastern religions and the Bible.

Dr. Errico is an ordained minister, international lecturer and author, spiritual counselor, and one of the nation's leading Biblical scholars working from the original Aramaic Peshitta texts.

For ten years he studied intensively with Dr. George M. Lamsa, Th.D., (1890-1975), world-renowned Assyrian biblical scholar and translator of the Holy Bible from the Ancient Eastern Text.

He has written over ten books on the scriptures using the original Aramaic documents.
